

Virtual Exhibitor Guide

[10X Genomics](#)

We build tools for scientific discovery, unveiling the true complexities of biology and disease at the fundamental level.

Position Types Available: Bioinformatics / Data Analytics, Hardware / Software Engineering, Pharmaceutical/Therapeutic R&D, Research Product R&D

Jobs Available: [Check 10X Genomics careers.](#)

[23andMe](#)

We are a mission-driven company with big dreams of using data to revolutionize health, wellness and research. Our mission to help people access, understand, and benefit from the human genome.

Position Types Available: Bioinformatics / Data Analytics, Clinical Research, Hardware / Software Engineering, Pharmaceutical/Therapeutic R&D, Research Product R&D

Jobs Available: [Scientist I / Scientist II, Computational Biology - Target Discovery, Scientist I / Scientist II, Computational Biology - Infrastructure, Statistical Geneticist](#)

[Calico Labs](#)

Calico

We seek to answer the most challenging biological questions of our time ' how humans age and can we develop interventions to allow people to live longer, healthier lives.

Position Types Available: Basic Research, Clinical Research, Pharmaceutical/Therapeutic R&D, Research Product R&D

Jobs Available: [Check Calico careers.](#)

Cleveland Clinic

[Cleveland Clinic Foundation/Genomic Medicine Institute](#)

The Genomic Medicine Institute is committed to performing translational and clinical human genetics and genomics investigation and fostering innovation toward realizing the benefits of personalized genomic-based healthcare.

Position Types Available: Bioinformatics / Data Analytics, Clinical Research

Jobs Available: [Postdoctoral Fellow - Biomarkers, Postdoc Positions: Areas Of Genomics, Computational Biology & Data Science](#)

[GENEWIZ](#)

As a global leader in R&D genomics services, GENEWIZ leads the way in providing superior data quality with unparalleled technical support to enable researchers around the world to advance their scientific discoveries faster than ever before.

Jobs Available: [Visit GENEWIZ careers.](#)

[Golisano Children's Hospital, University of Rochester](#)

MEDICINE of THE HIGHEST ORDER

The Division of Pediatric Genetics at the Golisano Children's Hospital, University of Rochester School of Medicine, is recruiting two medical geneticists. We are a major upstate New York full service multidisciplinary genetics provider.

Position Types Available: Basic Research, Bioinformatics / Data Analytics, Clinical Research, Patient Care / Genetic Counseling

Jobs Available: [Pediatric Genetics Faculty](#)

do more
feel better
live longer

[GSK](#)

Our Pharmaceuticals business has a broad portfolio of innovative and established medicines in respiratory, HIV, immunoinflammation and oncology. We are strengthening our R&D pipeline through a focus on immunology, human genetics and advanced technologies.

Position Types Available: Basic Research, Bioinformatics / Data Analytics, Pharmaceutical/Therapeutic R&D

Jobs Available: [Visit the ASHG Career Center](#)

[Illumina](#)

Illumina is an applied genomics technology company making genomics useful for all. We are tirelessly working to create the leading-edge technology that enables clinicians and researchers to not only understand the genome but also fully tap its power.

Position Types Available: Bioinformatics / Data Analytics, Hardware / Software Engineering, Research Product R&D

Jobs Available: [Check Illumina careers.](#)

[Integrated DNA Technologies](#)

IDT develops and manufactures nucleic acid products that support the life sciences industry. Areas of focus include academic and commercial research, agriculture, medical diagnostics, pharmaceutical development and synthetic biology.

Position Types Available: Basic Research, Bioinformatics / Data Analytics, Hardware / Software Engineering, Research Product R&D

Jobs Available: [Research Scientist III](#), [Staff Scientist - Enzyme QC Test Development](#), [Check Danaher/IDT careers](#).

[Johnson & Johnson](#)

At Johnson & Johnson, we believe good health is the foundation of vibrant lives, thriving communities and forward progress. That's why for more than 130 years, we have aimed to keep people well at every age and every stage of life. Today, as the world's

Position Types Available: Bioinformatics / Data Analytics, Hardware / Software Engineering, Pharmaceutical/Therapeutic R&D

Jobs Available: [Principal Scientist, Disease Genetics, Principal Scientist, Computational Genomics, Senior Principal Scientist, Computational Genomics](#)

[Loma Linda University](#)
[Faculty Medical Group](#)

Loma Linda University Faculty Medical Group is affiliated with Loma Linda University Medical Center, Children's Hospital and School of Medicine, with the mission to deliver whole-person care at a world-class level of clinical excellence.

Position Types Available: Basic Research, Clinical Research, Patient Care / Genetic Counseling

Jobs Available: [Clinical Geneticist/Metabolic Geneticist](#)

[Marshall University,](#)

[Joan C. Edwards School of Medicine](#)

Marshall University's Joan C. Edwards School of Medicine is a state-supported, community-based medical school established in

1977. Our faculty and administration are committed to providing high quality medical education and graduate training to meet the changing health care needs of our nation's citizens. We specialize in rural health issues as expressed in special efforts to recruit students from rural West Virginia and place graduates in clinical practice in rural areas. Additionally, because we believe that a diverse population offers a rich environment that leads to greater knowledge, understanding, acceptance and mutual respect, we promote an inclusive environment by attracting, recruiting, and retaining individuals who represent varying backgrounds and perspectives.

Position Types Available: Bioinformatics/Data Analytics

Jobs Available: [Bioinformatics Staff Scientist](#)

[Merck Research Laboratories](#)

We aspire to be the premier research-intensive biopharmaceutical company in the world.

Position Types Available: Basic Research, Bioinformatics / Data Analytics, Clinical Research, Pharmaceutical/Therapeutic R&D, Project Management, Research Product R&D

Jobs Available: [Check Merck careers.](#)

[Prevention Genetics](#)

At PreventionGenetics, a CLIA and ISO 15189:2012 accredited laboratory, we are passionate about human genetics. We deliver genetic testing of the highest quality with exemplary service for nearly all clinically relevant genes.

Position Types Available: Sales/Technical Support

Jobs Available: [Check Prevention Genetics careers.](#)

[St. Jude Children's Research Hospital](#)

St. Jude offers an exceptional training environment with state-of-the-art research facilities, competitive salaries, excellent benefits, and generous professional development funding. Learn more at www.stjude.org/postdoc

Position Types Available: Basic Research

Jobs Available: [Multiple Postdoc Positions are Available at St. Jude Children's Research Hospital](#)

**PERMANENTE
MEDICINE®**

Southern California
Permanente Medical Group

[Southern California Permanente
Medical Group](#)

Southern California Permanente
Medical Group (SCPMG) is

fortunate to have 65 years of stability and experience in delivering high-quality, innovative health care centered around the patients. With sub-specialists in virtually every area of practice.

Position Types Available: Patient Care / Genetic Counseling

Jobs Available: [CLINICAL GENETICIST OPPORTUNITY - San Diego, CA](#)

[University of Chicago](#)

The University of Chicago is an urban research university that has driven new ways of thinking since 1890. Our commitment to free and open inquiry draws inspired scholars to our global campuses, where ideas are born that challenge and change the world.

Position Types Available: Basic Research, Bioinformatics/Data Analytics, Clinical Research, Pharma/Therapeutic R&D, Research Product R&D

Jobs Available: [Check ASHG Careers.](#)
